THAP PHU QUY

Date of Birth: 08 - 11 - 2004
Phone: 0393237104
Email: thapphuquy2021@gmail.com
Address: Man Thien, Thu Duc, Ho Chi Minh City

CAREER OBJECTIVE

A highly self-motivated individual with a strong ability to learn new technologies and conduct independent research. Possesses a solid foundation in cybersecurity, Linux - Windows system administration, computer systems, and programming. Strong analytical and problem-solving skills, aspiring to work in the cybersecurity field.

EDUCATION

2022 - 2025 | iSPACE College of Cybersecurity
Major: Cybersecurity

WORK EXPERIENCE

Security Projects:

- Wireless Network Security with Cisco
- Firewall System Deployment: pfSense & Fortinet
- Security Monitoring System using Splunk & Wazuh
- Threat Intelligence Management with OpenCTI

System Administration & Support | VINAHOST Co., Ltd | 09/2024 - 07/2024

- Configured and managed network services: Domain, IP, DNS, SSL.
- Built and managed VPS and firewall systems.
- Implemented reverse proxy to enhance website speed and security.
- Set up and optimized WordPress for SEO performance.
- Migrated and optimized data for Hosting & VPS systems.
- Provided customer support and resolved security threats like WebShell malware.

TECHNICAL SKILLS

Network Administration

- + In-depth understanding of networking: OSI, TCP/IP, VLAN, OSPF, etc.
- + DNS, Web, Mail Server, and VPN administration.
- + High availability, load balancing, and proxy server configuration.
- + IDS/IPS policy management (Snort, Suricata).
- + Firewall security operations: pfSense, FortiGate, Cisco.

+   Network penetration testing & troubleshooting (OWASP Top 10).

System Administration

+   Automated tasks using Bash Scripting & Python.
+   Configured and maintained Windows & Linux server environments.
+   Managed access control, backup, and data storage systems.
+   Designed and secured networks with Switches, Routers, and Firewalls.
+   Worked with virtualization platforms: VMware, VirtualBox, ESXi, Docker, AWS Cloud.
+   Applied cryptographic security techniques: OpenSSL, AES, HASH algorithms.

Soft Skills

+   Proficient in English and technical documentation.
+   Strong responsibility and independent problem-solving skills.
+   Effective teamwork and cross-department collaboration.
+   Passionate about continuous learning and staying updated in cybersecurity.

CERTIFICATIONS

+   CPP, CWA, CWSA-1, CWSA-2 (cPanel)
+   PortSwigger Web Security
+   Fundamental Linux & Windows skills (HackTheBox)
+   CompTIA+ & CEH (Self-studied)

INTERESTS & OTHER SKILLS

+   Running, reading, and English comprehension.
+   Participated in CTF VSEC 2023.
+   Completed Klaytn Dev Bootcamp.
